

NLP Discovery Session

Here's How YOU Can Transform Your Life Using NLP For Personal Development

You
have probably noticed how successful people share a common
trait, they are good at communicating !

Take
a look at the denizens of the Dragon's Den, Gerry Robinson, The
Secret Millionaires, Alan Sugar, Richard Branson Business
people have become celebrities ! or as Bob Geldof is quoted as
saying "Business is the new rock n'roll"

With
the advent of the internet and online video, small business owners
can become celebrities too this means, practically you ! More
and more people are communicating to your potential customers, with
email, blogs, webinars, online video, pdf reports. In fact, take a
£100 FLIP video camera, a broadband link and a web site and you can
do your own internet infomercial, for example..... (Just like on TV)

.....

Wait
a minute

Who
has the skills to do that ?

Well,
you can begin by learning how to communicate effectively “face to face”, indeed more and more business people are learning how to do this for this very same reason. They have to learn to build deep rapport, ask great questions to discover what your client needs, open their senses, earn the opportunity to influence with trust and integrity and fine tune their message to meet your clients needs.

What
about those business owners that can't or won't learn how to communicate ?

Well,
you can always hope that the internet will go away and the good old days will return or you can learn 21st century communication skills your choice choose well , then read on so that by the end of your discovery session you have learned :
